

PACIFIC 2010 International Maritime Conference
27 - 29 January 2010
Sydney Convention and Exhibition Centre, Darling Harbour, Australia

You are invited to participate in the Pacific 2010 International Maritime Conference to be held at the Sydney Convention & Exhibition Centre, Darling Harbour on 27 - 29 January 2010. Pacific 2010 IMC will be held in association with the Pacific 2010 International Maritime Exposition, and follows the success of the International Maritime Conference held in January 2008.

Pacific 2010 IMC provides a unique opportunity for people involved in maritime and naval affairs around the world to discuss the latest developments in design, naval architecture, engineering, science and technology. With the concurrent Maritime Exposition, the event will provide a meeting place for industry representatives to exchange ideas and to establish personal and business contacts.

"Maritime Industry - Challenges, Opportunities and Imperatives"

Despite the compelling nature of the maritime environment in which we live and work, numerous and varying circumstances provide great challenges for the maritime industry which must be overcome in order to sustain competitive ocean transport, maritime defence and exploitation of resources. Whilst these challenges are considerable, the opportunities presented must be pursued and met so as to sustain our way of life.

The Pacific 2010 International Maritime Conference is hosted by:
Engineers Australia
The Royal Institution of Naval Architects
The Institute of Marine Engineering, Science and Technology

For further information, please contact the Conference Managers:
